The Brooklyn Bureau's Business Advisory Council (BAC) honored 12 local firms that hire workers with disabilities at its 6th Annual Employer Awards Breakfast. The Brooklyn Bureau BAC recognized Dr. Miracle's as one of the firms who helps the BAC provide disabled workers with jobs to help them focus and feel valuable with a Partner In Industry Award.

"I can't tell you how great I feel about the high-quality work we receive from the Brooklyn Bureau's sheltered workshop," said Ollie Johnson, creative director and co-founder of Dr. Miracle's. "Every month, their disabled workers assemble and ship thousands of our products that sell in stores all over the country. They pay attention to detail, have a great attitude and are very well-managed. For Dr. Miracle's, contracting our work to the Brooklyn Bureau's sheltered workshop is not only the right thing to do—really, it's the smart thing to do."
