

RDS Delivery Service

The Power of Networking

Larry Zogby, President RDS Delivery (NY) is a member of The Entrepreneurs' Organization, a global community of business owners, where recently Dr. Stephen Covey, author of several acclaimed books, including the international bestseller, *The 7 Habits of Highly Effective People*, recently spoke. Mr. Zogby has found the power of networking with such groups to be directly responsible for his company's fast growth as well as his own personal empowerment. Pictured with Mr. Zogby and Dr. Covey are Francesco Sciortino and George Stern, Professor and Author.
